Aged Care Diversity Framework

The Framework works to embed diversity in the design and delivery of aged care services.

Linked to the Diversity Framework are different action plans for diverse groups, including a CALD Action Plan.

Inclusive Services Standards and Aged Care Quality Standards

The Australian Aged Care Quality and Safety Commission references the Inclusive Service Standards as a key resource in assisting providers to comply with the Aged Care Quality Standards.

Meeting the performance measures in the Inclusive Service Standards provides evidence that an organisation is working to embed an inclusive non-discriminatory approach to its delivery of care and services.

Different languages, same aged care

One of the 2021 Aged Care Royal Commission's key recommendations was to ensure that diversity is core business in aged care. **Different languages, same aged care** is funded by the Department of Health and Aged Care in partnership with Think HQ and aims to:

- Enhance the ability of senior Australians to access information through the timely and targeted provision of translating and interpreting services
- Produce and translate information to allow aged care providers to communicate key written messages to their care recipients in languages other than English and other accessible formats

Aged care providers can request in-language materials for free through a dedicated website by registering their request + any additional materials they want translated at diversityagedcare.health.gov.au

My Aged Care Provider Specialisation Verification

- The Royal Commission into Aged Care Quality and Safety recommended that providers' diverse needs specialisation claims are verified to improve accuracy and reliability of providers' profiles on My Aged Care.
- As part of its response to Recommendation 30 a(iii) – Designing for diversity, difference, complexity and individuality, the Government implemented the My Aged Care Provider Specialisation Verification initiative on 27 June 2022.
 - The initiative puts in place a mechanism to check the accuracy of claims made by providers to deliver specialist care for older people with diverse backgrounds and life experiences.
- Prior to this date, providers could indicate that they provide specialised care without verification of these claims.

Objective

- Ensure more reliable information is available to older people with diverse backgrounds and life experiences, as well as their loved ones and representatives, when they are making decisions about their care providers.
 - The initiative helps people find the care that is right for them on My Aged Care and identify providers that are going above and beyond to specialise in the care of specific groups.

Verifying specialisation claims on My Aged Care

Resources

-  Where to find more information
-  The Specialisation Verification Framework
-  Detailed evidence requirements
-  Provider guidance manual
-  Independent assessor – Australian Healthcare Associates:

- Aged care providers may choose to offer specialised services for people:
 - with diverse experiences, backgrounds, and characteristics
 - who identify with one or more of the groups defined as having special needs in the Aged Care Act 1997.
- To claim specialisation through My Aged Care, providers must deliver care that:
 - is sensitive to the needs of these individuals
 - goes beyond the baseline obligations of the Aged Care Quality Standards.
- Applying to have specialisation claims verified is voluntary, however if a provider wishes to claim on My Aged Care to specialise in providing care to one or more diverse needs groups, they need to satisfy the criteria set out in the Specialisation Verification Framework.
- Only claims that have been verified through this initiative are visible to consumer My Aged Care.
 - Other specialisations are also published on My Aged Care, such as languages and health conditions. These are not a part of this initiative, and at present there is no plan to verify these.

Partners in Culturally Appropriate Care program

The Centre for Cultural Diversity in Ageing is funded through the Department of Health and Aged Care, PICAC program.

The Centre forms part of the PICAC Alliance, a national body comprising PICAC funded organisations across Australia.

The Alliance aims to be a voice and discussion conduit into information, training and resources to inform aged and community care services.
